DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please cancel claims 1-14, 20-37 and 42-43.

Allowable Subject Matter

2. Claims 44-59 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 44-59, the prior art alone or in combination does not teach the limitation of a flat aluminum electrolytic capacitor comprising a flexible casing that houses a capacitor element and being hermetically sealed to define an inside of the flexible casing, wherein the inside of the flexible casing being under reduced pressure compared to ambient pressure outside of the flexible casing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. The applicant has argued that Kaneko and Frinkelstein are silent with respect to a hermetically sealed flexible casing having an inside with reduced pressure compared to ambient pressure outside of the flexible casing. The examiner finds this argument persuasive. Therefore, the examiner made decision to allow this limitation over the prior art of record.
